• Software Craftsman (2022-2024)

Oracle Next Education (ONE)

• Frontend Developer (02/2023 Until 10/2023)

EXPERIENCE

Software Developer (TechTalk) 23/02/2023 - 8/10/2023

- Developed a complete project as a Full Stack Developer, using modern technologies and agile development practices.
- Implemented a secure authentication system using JWT (JSON Web Tokens) to manage login and registration functions.
- Designed and developed subscription functionalities for users, allowing the management of premium and standard accounts.
- I created a post management system that allowed users to create, edit and delete their posts, with validation and security features.
- I implemented the comments functionality on posts, allowing users to interact and share opinions.
- I used technologies such as: Node.js, React.js, Express.js, MongoDB, Tailwind CSS, to develop the project in an efficient and scalable way.

Software Engineer (Minnek Digital Studio) 18/3/2024 - Present

- -Contributing to various projects in collaboration with a team of developers.
- -Contributing e-commerce solutions for Your Store Wizards to improve their customer experience.
